5. IF design award 2019 winner

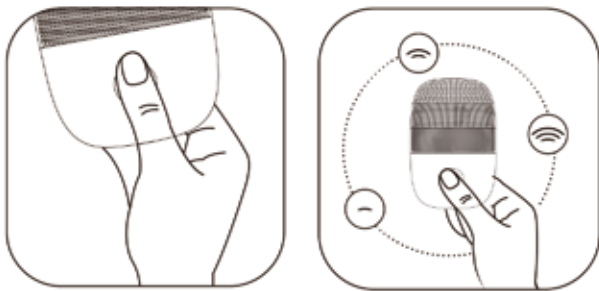

Product Specifications

Product Model:	MS-2000
Product Size:	80mm*53mm*30.4mm
Net Weight:	About 83g
Battery Capacity:	400mAh
Charging Voltage:	5V
Charging Current:	200mA
Charging Time:	About 2.5H
Continuous Working Duration:	About 240 minutes
Working Temperature Range:	-10°C~40°C
Materials:	FDA Food Grade Dow Corning Silicone

inFace Sonic Cleanse Device

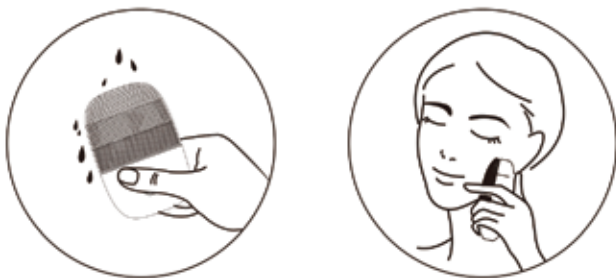

Operation:

1. In the 'off' state, long press the button for 1.5 seconds to turn on the device. The product will automatically shut down if there is no operations over 90 seconds.
2. Short press the button to switch the 1-3 level.
3. In the 'on' state, long press the key for 1.5 seconds to turn off the device.

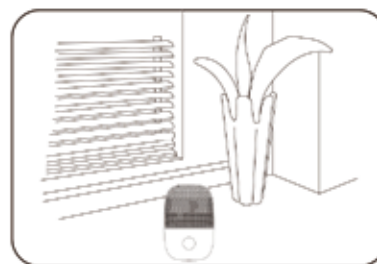

Usage:

1. Moisturize the face with foam cleanser and moisturize the silicone brush.
2. Long press the device for 1.5 seconds to turn on; short press the button to set the appropriate level.
3. Wash your face with the brush and move it slowly, stay 2-3 seconds for each area.
4. Wash off residual cleanser on your face and continue your daily facial care.

Cleaning Method

1. Long press the button to turn off the device and clean it with clean water.
2. Shake off the water on the product, put it on the base (do not cover it by the transparent cover) and place it in a ventilated place.

Notice: Do not use organic solvents, such as alcohol, benzene or thinners, to clean the product.

Follow your doctor's advice for acne, wounds, or surgery. Sensitive skin is recommended to use the device with the weakest level. The product is not recommended for long-term soaking in water to avoid affecting its performance. Do not use while charging. Avoid sun exposure that will affect the performance of the silicone and reduce the silicone life.
