# Mi Robot Vacuum-Mop 2 Ultra

## Dual-channel dust collection\*

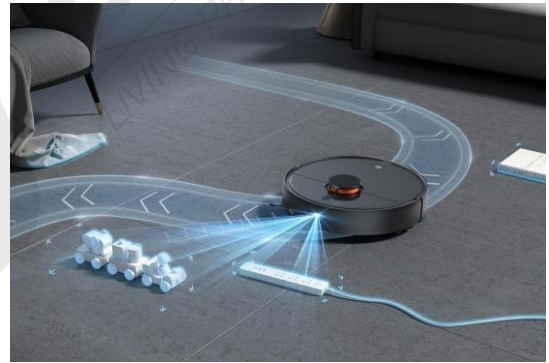

With strong airflow of 16500Pa, the dust box can be emptied within 10s.

## 4L large capacity | dust bag\*

The front-mounted ToF sensor accurately detects spatial data, and evacuates in time when encountering a small space below the height of the cleaner

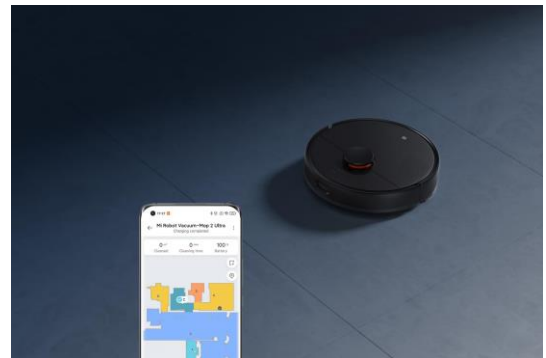

## S-cross™ 3D obstacle avoidance technology.

It can sense the contours of home obstacles such as slippers and thread balls, and decelerate in advance.

## New LDS laser navigation, intelligent path planning

The new generation of LDS laser navigation technology accurately scans the home environment, instantly and truly constructs the layout of the whole house.

## Xiaomi /Mi home App Control

Automatic zoning, selection area cleaning, zone cleaning, virtual wall/forbidden area, dynamic path planning

\* The station and dust bag must be purchased separately

# Mi Robot Vacuum-Mop 2 Ultra
